

CAMPUS CURVE – 360° TEACHER EVALUATION PLATFORM (NEP 2020)

Performance based Teacher Increments Platform based on
ADEPTS and TSAR Frameworks

TEACHERS

Self-driven growth and professional reflection.

- **Self-Evaluation:** Teachers can reflect on their classroom practices, assess teaching strategies, and align their methods with modern pedagogical standards.
- **Structured Self-Assessment:** Guided questionnaires highlight strengths and areas for growth, encouraging purposeful professional development.
- **Peer Review:** Teachers gain valuable insights from colleagues, fostering a culture of collaboration and shared excellence.

STUDENTS

Your voice, your learning experience.

Class Teacher Ratings: Evaluate guidance, emotional support, and classroom management skills.

Subject Teacher Ratings: Share experiences about clarity of instruction, subject expertise, and the ability to engage learners.

PARENTS

Partnering in your child's education.

- **Class Teacher Ratings:** Share impressions on how well teachers nurture overall development, discipline, and character building.
- **Subject Teacher Ratings:** Assess whether subject instruction is clear, consistent, and impactful on the child's progress.

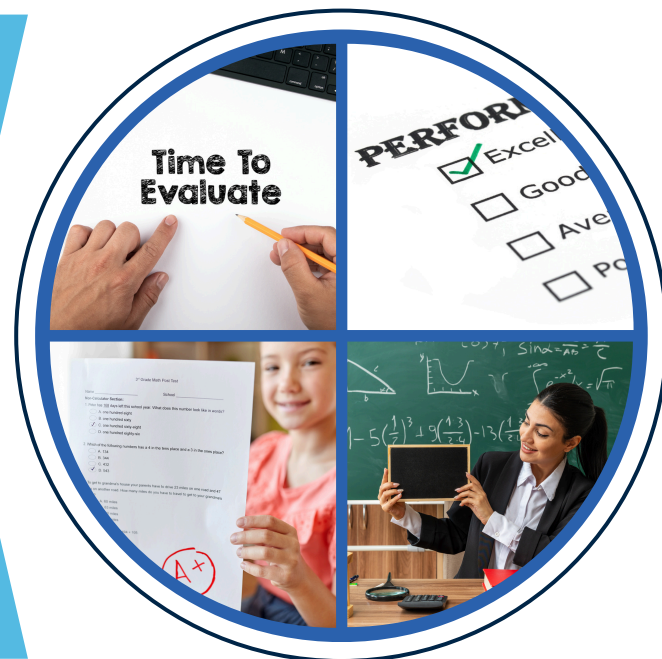

VICE PRINCIPAL

Driving quality across departments.

- **Evaluate All Teachers:** Based on classroom observations, performance benchmarks, and overall contribution to school goals.

WHY CAMPUS CURVE?

- **Multi-Perspective Feedback:** Brings together voices from students, parents, teachers, and school leadership.
- **Transparency & Accountability:** Builds trust among stakeholders through clear, unbiased evaluation.
- **Continuous Growth:** Encourages professional development and teaching innovation.
- **Better Student Outcomes:** Stronger teaching practices lead to enhanced learning experiences.
